### sample Happi HHC Gummies 250mg Blue Raspberry

Sample ID SD230323-011 (70964) Matrix Edible (Other Cannabis Good)		
Tested for Fresh Farms E-Liquid LLC		
Sampled -	Received Mar 22, 2023	Reported Mar 24, 2023
Analyses executed CANX		Unit Mass (g) 39.274

Laboratory note: The estimated concentration of the unknown peak in the sample is 0.01% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC. (+)d8-THC is a different compound from the main (-)d8-THC cannobinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC with the majority, if not all, of the concentration being (+)d8-THC. Total (+/-) D8 concentration is estimated to be 0.02%
