PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-0000098-LIC ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

Sample D8Co Twisted AF 1G Cartridge Mystery x Gelato

Sample ID SD220901-0	16 (51879)	Matrix Concentrate (Inhalable Cannabis Good)		
Tested for D8Co				
Sampled -	Received Aug 31, 2022	Reported Sep 02, 2022		
Analuses executed CA	N+	Unit Mass (a) 2.0		

Laboratory note: The estimated concentration of the unknown peak in the sample is 8.08% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC (+)d8-THC is a different compound from the main (-)d8-THC cannabinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the sparation of (+)d8-THC and d9-THC is a different efficacies. Using the most advanced instruments and techniques available, the sparation of (+)d8-THC and d9-THC is a different efficience. The same standards available is a sparation of (+)d8-THC and (+)-THC is a different efficience. Using the most advanced instruments and techniques available, the sparation of (+)d8-THC and d9-THC is a different efficience. The same standards available is a sparation of (+)d8-THC and (+)-THC is a different efficience. The same standards available is a sparation of (+)d8-THC and (+)-THC is a different efficience. Using the most advanced instruments and techniques available, the sparation of (+)d8-THC and (+)-THC is a different efficience. The same standards available is a sparation of (+)d8-THC and (+)-THC is a different efficience. The same standard available is a sparation of (+)d8-THC and (+)-THC and d9-THC with the majority, if not all, of the concentration being (+)d8-THC. Total (+/-) D8 concentration is estimated to be: 87.13%

CAN+ - Cannabinoids Analysis

Analyzed Sep 02, 2022 | Instrument HPLC-VWD | Method SOP-001 Measurement Uncertainty at 95% confidence 7.806%

Analyte	LOD mg/g	LOQ mg/g	Result %	Result mg/g	Result mg/Package

"This report shall not be reproduced except in full, without the written approval of the lab. This report is for informational purposes only and should not be used to diagnose, treat or prevent any disease. Results are only for samples and batches indicated. Results are reported on an "as received" basis, unless indicated otherwise. When a Pass/Fail status is reported, that status is intended to be in accordance with federal, state and local laws which are required for the customer to be in compliance. The measurement of uncertainty is not included in the Pass/Fail evaluation unless explicitly required by federal, state or local laws and has been reported on the certificate of analysis. Measurement of uncertainty is available upon request.
